WEB SOFTWARE DEVELOPER — APRIL 2023 - PRESENT

- Leading the UI implementation on a highly visible project, ensuring all milestones are met on schedule for the upcoming release date.
- Involved in architectural decisions, contributing to the project's design and structure.
- Mentoring a junior developer, providing guidance, support, and knowledge transfer to enhance their skills and productivity.
- Collaborating with cross-functional teams to align project goals and deliverables.
- Successfully delivered a customer demo, showcasing the project's features and receiving positive feedback.
- Continuously improving and optimizing the codebase to enhance performance and scalability.
- Ensuring adherence to project timelines and quality standards, contributing to the project's overall success.

ASSOCIATE WEB SOFTWARE DEVELOPER — OCTOBER 2022 - APRIL 2023

- Took ownership of feature development and defect resolution, enhancing application functionality and reliability
- Designed intuitive UI mockups using Balsamiq for a new product
- Contributed to the transition towards an agile organization by advocating for CI/CD practices to streamline development processes
- Authored and refined internal documentation, including advanced version control methodologies, to optimize team workflows
- Promoted in 6 months due to strong performance and contributions providing business value

Boston University, School of Hospitality Administration, | Boston, MA

ASSISTANT TO THE DEAN & OPERATIONS MANAGER	2021 - 2022
OPERATIONS MANAGER	2020 - 2021
ADMINISTRATIVE COORDINATOR	2019 - 2020

Managed the Dean's Office day-to-day operations, planned and coordinated events, updated and maintained the school's website, prepared contracts, appointment packets, and promotion dossiers for faculty, and managed calendar, travel, meetings, itineraries and expenses for the dean. Managed student employees from hiring, onboarding, supervising, to payroll and termination. Designed and implemented SOP for textbook ordering and course evaluations.
